

Tadeusz Przybylski — driving change

I combine experience in production, ERP/MES rollouts and change management with a Human-in-the-Loop approach. Data-driven decisions, people-centered execution, measurable results.

What I do

ERP/MES Rollouts

Integrating business, IT and production; process mapping, UAT, training.

Operational Transformations

Plant launches, flow reorg, WIP reduction, takt/cycle, layout & flow.

Change Management

Sponsor, ambassadors, ADKAR; facts and emotions; habits and accountability.

AI with People

Fast MVPs (Python/Flask, REST, SQL), automated reports, what-if simulations.

How I work (3 steps)

- **Diagnosis (1-2 weeks)**
Goals, metrics, constraints.
- **Plan + MVP**
Quick prototypes, clear priorities.
- **Implementation + habits**
Rituals, dashboards, ownership.

Why me

- APP - Academy of Leadership Psychology
- Versatile leadership - empathy + delivery
- 360° perspective - board, production, IT
- Tech stack - Python, Flask, REST API, SQL
